

RateTrack® Annuity

Do you want to help your conservative clients preserve principal and still participate automatically if rates rise?

Key features

- [RateTrack® Annuity](#) is tied to the 3 Month ICE LIBOR USD Rate, which has tracked about 25 basis points higher than the federal funds rate since its inception.
- See how RateTrack® Annuity Owners have benefited from the [renewal rate](#) on their Total Credited Interest Rate.

RateTrack® Annuity, the industry's first floating rate annuity, offers unprecedented potential for automatic growth as rates rise without incurring market risk.

The Federal Open Market Committee has raised rates several times since December 2015 and could increase rates further. If rates go up, the LIBOR rate would be expected to rise too.

- [3 Month ICE LIBOR USD Rate](#)
The 3 Month ICE LIBOR USD Rate is anticipated to be discontinued. In connection with such event, SBL will substitute a comparable index interest rate for the 3 Month ICE LIBOR USD Rate and may adjust the Guarantee Period Base Rate.

Let Security Benefit assist you and your clients by taking advantage of our RateTrack® Annuity solution.
