

Tax-deferred Growth

Deferring taxes on your gains until you take withdrawals helps grow your account value faster.

All of our annuities offer the advantages of tax deferral on gains — but with variable annuities, you’re able to invest in the market similarly to how you would invest in traditional stock/bond portfolios. This means you can customize your tax-deferred account to be as conservative or aggressive as you wish, but without taxation during accumulation.

Annuities are long-term investments, suitable for retirement investing. The investment return and principal value of an investment in a variable annuity will fluctuate and you may have a gain or loss at redemption.

Guarantees provided by annuities are subject to the financial strength of the issuing insurance company. Annuities are not FDIC or NCUA/NCUSIF insured; are not obligations or deposits of, and are not guaranteed or underwritten by any bank, savings and loan, or credit union or its affiliates; and are unrelated to and not a condition of the provision or term of any banking service or activity.
