

DPL Assembles Market Leaders Avantis Investors, Barclays and Security Benefit Life to Introduce Innovative Asset Allocation Option for RIAs

DPL Financial Partners (“DPL”), the leading turnkey insurance platform for registered investment advisors (RIAs), announced the introduction of a new and innovative U.S. equity index designed to deliver higher expected returns with lower volatility. The Avantis Barclays Volatility Control (“VC”) Index represents a first for Eduardo Repetto and Pat Keating of Avantis Investors, who created it specifically for the RIA market and the fixed index annuity (FIA) structure. An index account option based on the new index is now available exclusively in Security Benefit Life’s ClearLine Annuity on DPL’s platform for registered investment advisors.
