Strategy: 59 Low Cost Investment Options with Efficient Enrollment

- Investment Practices Statement (IPS). An IPS puts a defined process in place to monitor the funds within the plan and select the funds for the plan. A streamlined approach to the fund maintenance of the plan.
- Quarterly Report Cards show how the funds are doing.
- Automatic Fund Mapping replaces under-performing funds.
- [Monthly Performance](#)
- [Quarterly Performance](#)

For more information, contact your financial professional or call us at 800.747.5164 option 3.

¹The principal value of target date funds is not guaranteed at any time, including at or after the target date, which is the approximate date when investors turn age 65. The funds invest in a broad range of underlying mutual funds that include stocks, bonds, and short-term investments and are subject to the risks of different areas of the market. The funds emphasize potential capital appreciation during the early phases of retirement asset accumulation, balance the need for appreciation with the need for income as retirement approaches, and focus more on income and principal stability during retirement. The funds maintain a substantial allocation to equities both prior to and after the target date, which can result in greater volatility.
