- A 0.10% interest rate bonus on contract amounts that are \$125,000 or more
- Death benefit

### 9 Ways a Security Benefit Fixed Annuity Can Complement Your Clients' Goal for a Confident, Comfortable Retirement

Your clients may already be securing their financial future by contributing to their employer's 401(k) or 403(b) plan, IRAs, or other savings vehicles to supplement retirement income sources like Social Security and pensions. A fixed annuity can complement their comprehensive approach, particularly since there is no annual contribution limit for an annuity.

Here are nine key features of a fixed annuity to consider:

1. **Competitive, Current Rates:** Because annuities are designed to be held for the long term, they may offer higher interest rates than many other guaranteed-rate savings options. The rate is guaranteed for a specified period of time.
2. **Safety:** Buying a multi-year guaranteed fixed annuity and holding it for the entire guarantee period is a safe way to save, even more so than bonds, which can fall in price in a rising rate environment. The value of a Security Benefit fixed annuity is fully backed by the insurance company.
3. **Tax Deferral:** Annuities are tax deferred, so no taxes are paid on interest credited until a withdrawal is made, allowing more money to compound over time.
4. **Withdrawal Flexibility:** Generally, after the first year, owners can withdraw up to 10% of their contract value each year, free of surrender charges and market value adjustments.
5. **Predictable Income:** Owners annuitize their contracts for a guaranteed stream of income for their lifetime, the longer of their or their spouse's lifetime, for a fixed payment amount, or for a specified period.
6. **Emergency Access:** Many annuities allow withdrawals without surrender charges in the event of a terminal illness diagnosis or confinement to a nursing home or hospital for longer than 90 days (additional restrictions usually apply).
7. **Principal Guarantee:** Most issuing insurance companies guarantee principal for fixed annuities.
8. **Death Benefit:** Contract value passes directly to beneficiaries without the delay of probate, providing the owner's beneficiaries with access to the annuity's death benefit quickly and without additional expense.

9. **Ease:** Owners put their funds in an annuity for a specified number of years and earn a competitive rate for the guarantee period. At the end of the guarantee period, clients can continue to keep their funds in the annuity or switch to another product.
