The chart presents the change in the index value for the selected period; an individual cannot invest directly in an index. The change in the index’s value shown in the chart does not reflect the caps, spreads, trigger rates, and/or participation rates that would have applied to an index account in a fixed index annuity that determined interest credits based in part on the change in the index’s value. Past performance of the index is no guarantee of, and should not be relied upon as a predictor of the future change of the index’s value. Unless otherwise indicated, the index’s performance does not include dividends.
