*The average annual total return figures assume a one-time investment of \$1,000 at the beginning of each period. All dividends are assumed to be reinvested. NAV performance returns do not reflect deduction of any front-end sales loads or contingent deferred sales loads that may be imposed by the funds. Such loads are waived by the funds for purchases made through this Program. If you purchase these funds outside of this Program, you may be subject to these charges. If the sales loads were reflected in the accompanying performance data, it would reduce the quoted performance. In addition, the NAV performance numbers do not reflect deduction of any Trust/Custodial Account charges, which would reduce the quoted performance. Because this performance information does not reflect deduction of Trust/Custodial Account charges, the quoted performance is higher than the performance experienced by your Trust/Custodial Account.

Morningstar measures risk adjusted returns. The overall rating is a weighted average based on a fund's 3, 5, and 10 year star rating.

- ³ The Guaranteed Group Annuity (also referred to as the Fixed Account Option) is a group unallocated fixed annuity contract issued by Security Benefit Life Insurance Company ("SBL"), policy form GV4586. The obligations under the Fixed Account option are guaranteed by SBL's General Account in the event that the assets are not sufficient to meet the Fixed Account obligations. The Guaranteed Minimum Interest Rate for the Fixed Account Option is 0.50% for 2019.
- ⁴ The current yield more closely reflects the current earnings of the fund than the total return.
- ⁵ **You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time.**
- ⁶ Investments in the fund that are held 90 days or less may be assessed a redemption fee, which is retained by the fund. A redemption fee may be assessed on shares held 90 days or less.
- ⁷ This fund uses extended performance, which generally means that the fund manager calculates performance for the share class of the fund listed based upon on performance of a previous share class. Thus, older performance may have been higher or lower if the share class listed was in existence during such time periods. For specific periods using extended performance please consult the fund's prospectus.

C - The difference between the gross expense ratio and the net expense ratio represents a contractual waiver of fees. A contractual waiver is generally provided for a specified period of time.

V - The difference between the gross expense ratio and the net expense ratio represents a voluntary waiver of fees. Unlike a contractual waiver, a voluntary waiver is not provided for a specified period of time and may end without notice. Refer to the fund's prospectus for details about this voluntary waiver.

Triple-digit or high double-digit performance is attributable, in part, to unusually favorable market conditions and may not be repeated or consistently achieved in the future. Recent market volatility may affect performance so that current performance may be lower. Performance, especially for short time periods, should not be the sole factor in making your investment decisions.

Morningstar Rating™

Often simply called the Star Rating, the Morningstar Rating brings load-adjustments, performance (returns) and risk together into one evaluation. To determine a fund's star rating for a given time period (three, five, or ten years), the fund's risk-adjusted return is plotted on a bell curve: If the fund scores in the top 10% of its category, it receives 5 stars (Highest); if it falls in the next 22.5% it receives 4 stars (Above Average); a place in the middle 35% earns 3 stars (Average); those lower still, in the next 22.5%, receive 2 stars (Below Average); and the bottom 10% get only 1 star (Lowest). The Overall Morningstar Rating is a weighted average of the available three-, five-, and ten-year ratings.
